

2023 TXSES Annual Meeting

SOLAR AUSTIN

Our Story

In 2002, a community movement to create a solar rebate program at the local utility Austin Energy gave rise to Solar Austin. Since then, SA's work has grown to encompass workshops, community solar installations, policy advocacy, and education and workforce development.

In 2019, we launched our Pathways to Clean Energy Careers Program, and in 2021 we hired our first Executive Director.

Major Milestones and Programs

- New logo and branding released
- Community Installation Program
- Pathways to Clean Energy Careers
- Most funds raised EVER

Good help is
hard to find.

SOLAR AUSTIN

**2023 is our year of collaborative
partnerships.**

**Join us as we continue to tap into the
diverse talent of exceptional
students from all over the state. We
anticipate over 100 students from all
over the state will be available this
summer.**
